

## Overview

- The Fund seeks long-term growth of capital; that is, the increase in the value of your investment over the long term.
- What differentiates this strategy is the managers' ability, through fundamental analysis, to identify the building blocks of higher profitability before it is recognized by the market; that is their edge.
- Led by experienced and successful co-managers who are disciplined and committed stewards of investor capital
- A focused portfolio with a proven track record in a less-efficient asset class
- Limited capacity (approximately \$300M)
- Litman Gregory's 30+ years of intensive manager due diligence

## Fund Sub-Advisor

**Segall Bryant & Hamill—Mark Dickherber & Shaun Nicholson**

Small-cap value-oriented investors who seek to identify companies with the potential for significant improvement in return on invested capital (ROIC) before it is recognized by the market. Evaluating managements' plans for improving returns is critical, as is having managements' financial incentives aligned with higher ROIC goals. The team looks for stocks with a 3:1 upside/downside ratio, and stocks are sold when improved returns are reflected in stock prices.

*Performance data quoted represents past performance and does not guarantee future results. Index performance is not illustrative of fund performance. An investment cannot be made directly in an index. Short-term performance in particular is not a good indication of the fund's future performance, and an investment should not be made based solely on returns. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the fund may be lower or higher than the performance quoted. To obtain the performance of the funds as of the most recently completed calendar month, please visit [www.imgpfunds.com](http://www.imgpfunds.com). Investment performance reflects fee waivers in effect. In the absence of such waivers, total return would be reduced. The gross and net expense ratios can be found in the most recent summary prospectus (4/30/2021). There are contractual fee waivers in effect through 4/30/2022. While the fund is no-load, management and other expenses still apply.*
