Cost Basis Accounting Method Election¹

On October 3, 2008, the Emergency Economic Stabilization Act, HR 1424, was signed into law, which included provisions from the Energy Improvement and Extension Act of 2008, requiring mutual funds to provide cost basis reporting to their customers and the IRS.

iM Global Partner Funds will provide cost basis information to you and the IRS for shares purchased on and after January 1, 2012 (covered shares). The cost basis accounting method elected below will be used for all accounts established by this application.

Cost Basis Accounting Methods iM Global Partner Funds offer:

- **Average Cost** – Calculates the cost of shares in an account by averaging the cost of all purchases made after January 1, 2012. Shares will be redeemed in a first-in first-out order for the average cost method.
- **First-In First-Out** – Shares acquired first in the account are the first shares depleted.
- **Last-In First-Out** – Shares acquired last in the account are the first shares depleted.
- **High Cost** – Shares acquired with the highest cost per share are the first shares depleted.
- **Low Cost** – Shares acquired with the lowest cost per share are the first shares depleted.
- **Loss/Gain Utilization** – Depletes shares with losses before gains, consistent with the objective of minimizing taxes. For shares that yield a loss, shares owned one year or less (short-term) will be redeemed before shares owned more than one year (long-term). For gains, long-term shares will be redeemed before short-term gains. With favorable long-term gains rates, long-term gains are given priority over short-term gains to reduce tax liability.
- **Specific Lot** – Shareholder selects which lots to deplete at time of each redemption.

Note: When selecting Specific Lot, please choose a secondary method to be used as an alternate in the event specific lot depletion information is not provided.

- First-In First-Out
- Last-In First-Out
- High Cost
- Low Cost
- Loss/Gain Utilization

Note: The iM Global Partner Funds' default method of Average Cost will be used if a cost basis accounting method is not elected.

In order to provide you and the IRS with accurate cost basis accounting, please elect:

If you have purchases or transfers made into your account with shares purchased prior to January 1, 2012 (non-covered shares), we **may** be able to provide you an average cost for these shares.

- Yes, please provide average cost information on my non-covered shares when available. I understand that non-covered shares will be redeemed first and that covered shares will be redeemed using the method elected above; after all non-covered shares have been depleted.
